

## Case Management Process - From Enquiry to Implementation

Your call is taken by our centralised Case Management Team who will take full details of your case

Our Case Management Team will provide you with a full quotation and forward you a selection of candidate profiles that suit your requirements

We will arrange an initial assessment or meeting which will be attended by a member of our Implementation Team

The Implementation Team will identify a robust team of Healthcare Professionals with suitable skills and experience

If any further or bespoke training is required, this will be identified and implemented

Our Implementation Team will provide clinical liaison for delegated tasks
